

Tolentino Abner Jr Morales

Software Engineer · Computer Engineer · Designer

abner.tolentino@u.nus.edu | Singapore | +65 84680443 | <https://abnermtj.github.io/>

Experience

Hewlett Packard Enterprise

Jan 2022 - Jun 2022

Software Firmware Engineer Intern

- Developed regression tests frameworks for Network Switches using Pytest, Ceedling, Unity and CMock

Microtube Technologies

Oct 2021 - Nov 2021

Software Engineer Intern

- Led an initiative to create a data visualizer for Bluetooth sensors using UWP and Unity. Completed the UI/UX design and implementation in time to be launched with their sensor kits

National University of Singapore

May 2021 - Aug 2021

Technical Project Manager

- Mentored 5 teams on software engineering practices and the fundamentals of app development

Projects

Dance Move Detector

Aug 2021 - Nov 2021

Python/C++ Developer

- Developed a wearable dance move detector that uses neural networks
- Designed and implemented the Bluetooth protocol between IoT devices with Python on Ubuntu
- Implemented the reading and processing of IMU and EMG data on Arduinos in C/C++

RPG Adventure Game

May 2020 - Aug 2020

Game Developer

- Developed a pixel art platformer adventure game inspired by MapleStory
- Designed and implemented gameplay, physics, and software architecture on Godot in GdScript
- Clinched Top 6 of 383 projects in NUS SoC's Orbital 2020 for good software engineering

Self-Checkout App

Feb 2021 - April 2021

UX Designer

- Designed a checkout app to reduce queue times at local supermarkets in Balsamiq and Figma
- Conducted design research like usability tests and contextual interviews with shoppers
- Awarded Huawei Future Interaction Design Award 2nd Place

Skills

Languages

C/C++ · C# · Java · Python · HTML/CSS/JS · Verilog

Technologies

Unity · Godot · UWP · Arduino · Git · Unix · Docker

Tools

Vim · Figma · Photoshop

Education

National University of Singapore

Aug 2019 - Expected July 2023

B.E Computer Engineering

- CAP: 4.79/5.00 · Dean's List
- Modules: SE & OOP · DSA · OS · Networks · AI · Game Dev · Graphics
- Others: Carnival Jam 2021 · Execute Hackathon 2020 · NUS Comics and Animation Society
